

Control App

Transform your Android device into a powerful teleprompter controller with the Control App. Featuring customizable touch screen interfaces and complete remote control over Wi-Fi, it offers flexibility and convenience for modern prompting workflows.

Note: Android device not included. License-based app, valid only with the Samvad software it is initialized with.

Key Highlights

- Complete remote control via Wi-Fi network
- Customizable touch screen interface
- Network-dependent range for studio flexibility
- Works with Android 11.0 and above
